

Message from the Chairman of the CSR Committee of Marubeni India Pvt. Ltd.

*As a part of Marubeni Group, Marubeni India Private Limited (MIPL) ensures that our Core values are functioning to the highest standards. We believe that our objective is not limited to carry out our business operations for profit but also to enrich lives and make a social impact around its area of operations. To achieve this, we must foremost remain true to the spirit of our Company Creed of “**Fairness, Innovation and Harmony.**”*

We believe in giving back to the community by actively engaging in salient Corporate Social Responsibility (CSR) events and activities. To promote a positive and sustainable environment as well as to improve social contribution to the community in which we operate, we are committed to make meaningful contributions to the society.

Illustrative of this commitment, Our CSR engagement stretches from local clean up efforts to making donations and organizing relief camps in the areas struck by natural disasters.

MIPL launched its Meritorious scholarship Program for the underprivileged students of the community in the FY 2016-2017 and since then it is our continuous endeavor to take our current CSR activity further- year on year. MIPL has decided to continue with its scholarship program in the FY 2019-20 at a PAN India Level where students from across the nation can apply for this scholarship.

By virtue of this Scholarship program, MIPL seeks to provide scholarship funds and support to the underprivileged meritorious students who are meeting the criteria in pursuing their post-secondary education, who otherwise may be constrained due to limited financial means to fulfill their educational goals. Marubeni perceive higher education as a catalyst, an agent of change for individuals, families, communities and nations. We envision a community that recognizes the importance of educational attainment which assures positive educational outcomes that are accessible to all regardless of economic circumstance.

Marubeni will continue to promote its CSR activities and remain a trusted partner of our stakeholders by dedicatedly committing ourselves to addressing the social issues.

Atsushi Suzuki

*Chairman & Managing Director,
